Professional Summary

Digital Product Designer with a Master's degree in Human-Computer Interaction and User Experience. I enjoy shaping digital experiences that balance clarity, usability, and visual craft. My work focuses on turning ideas, research insights, and wireframes into thoughtful interfaces, interactive prototypes, and cohesive digital design systems.

With a strong interest in typography, layout, and interaction design, I aim to create digital products that feel intuitive, visually refined, and consistent across platforms. I enjoy collaborating with designers, strategists, and developers to explore ideas, refine concepts, and bring engaging digital experiences to life.

Core Skills

Digital Design & Visual Craft

- Digital Product & Interface Design
- Typography, Layout & Visual Hierarchy
- Interaction Design
- Responsive UI Design
- Visual Consistency Across Platforms

Product & UX Design

- End-to-End Product Design
- User Flows & Information Architecture
- Wireframing & High-Fidelity UI
- Prototyping (Figma)
- Design Systems & Component Libraries

User Research & Validation

- Usability Testing
- User Interviews
- Qualitative Analysis
- Insight Synthesis
- Research-to-Design Translation

Collaboration

- Cross-Functional Design Collaboration
- Workshop Facilitation
- Agile / Scrum Environments
- Design Presentation & Communication

Tools

Figma · Miro · Azure DevOps · Jira · GitHub · MAXQDA

Education

MSc in Human-Computer Interaction & User Experience

Umeå University, Sweden | August 2023–June 2025

- **Master's thesis: EVALUATING THE INTERNATIONAL USABILITY OF ULTRA: A mixed-method approach.**

- Conducted mixed-method research (qualitative analysis and qualitative coding)
- Identified usability barriers across diverse cultural user groups
- Translated research insights into design recommendations, improving clarity and task flow
- Focused on accessibility, real-world usage, and measurable UX improvements

BSc Computer Science & Engineering

National University, Bangladesh | April 2013– August 2017

Experience

Software Tester (Intern)

Vitec Software Group, Umeå | Nov 2021 – Mar 2022

- Collaborated with **designers, developers, and product managers** in agile teams
- Identified usability and interface issues within enterprise digital products
- Provided **structured UX feedback improving interaction flows and usability**
- Conducted functional and regression testing using Azure DevOps
- Participated in sprint reviews and backlog refinement

Additional Experience

Service Assistant (Part-time)

Region Västerbotten, Umeå | Sep 2023 – Present

- Delivered user-centered service in a healthcare environment
- Adapted communication for diverse accessibility and language needs
- Strengthened empathy-driven understanding of real-world user contexts

UX Projects (Selected)

Ultra – Public Transportation App Redesign (Part of the Master's Thesis)

- Focused on interview findings to identify usability barriers for diverse users
- Redesigned ticket selection and next-bus access to improve clarity and speed of core tasks
- Developed user flows, wireframes, and high-fidelity UI prototypes in Figma
- Improved language clarity, navigation, and accessibility for the users

MyGov BD – Public Services & Accessibility (UX Redesign)

- Conducted accessibility evaluation using WCAG 2.1 principles
- Redesigned information architecture for improved clarity and reduced cognitive load
- Developed wireframes and high-fidelity prototypes in Figma
- Validated improvements through usability testing and iterative refinement

Trubble Buddy – Co-Design for Youth Mental Health

- Facilitated participatory workshops with stakeholders
- Designed discreet, ethical interaction concepts
- Developed service and product prototypes grounded in inclusive design thinking

(Detailed case studies available in portfolio.)
