Career Objective

Junior UX Designer and Master's graduate in Human-Computer Interaction and User Experience with strong foundations in **user-centered design, UX research, wireframing, prototyping, and usability testing**. Hands-on experience from academic UX projects and a software testing internship, collaborating with **developers** in agile environments. Passionate about designing **intuitive, scalable SaaS interfaces** and eager to grow in a fast-paced startup setting.

Core Competences

UX & Product Design: Wireframing, User Flows, Interaction Design, High-Fidelity UI Design, Design Systems & UX Patterns, Visual Design, Accessibility (WCAG), Information Architecture.

User Research: User Interviews, User Requirements & Insight Synthesis, Mixed-Methods Analysis, Journey Mapping, Usability Testing.

Prototyping & Iteration: Low- to High-Fidelity Prototypes, Rapid Iteration, Feedback-Driven Design Improvements.

Tools: Figma, Miro (basic), MAXQDA, VS Code, GitHub.

Front-End Skills: React.js, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap.

Collaboration & Ways of Working: Agile/Scrum, Cross-Functional Collaboration, Workshop Facilitation, Design Critiques, Hybrid & Remote Work

Education

MSc in Human-Computer Interaction & User Experience

Umeå University, Sweden | August 2023–June 2025

- **Relevant Coursework:** User-Centered Design & Design Thinking, Usability Testing & Evaluation, Interaction Design & Prototyping, Human Computer Interaction Theory, Emergent technology, AI for Business, Qualitative & Mixed-Methods UX Research, Inclusive & Accessible Design (WCAG).
- **Thesis: EVALUATING THE INTERNATIONAL USABILITY OF ULTRA: A mixed-method approach.**

BSc Computer Science & Engineering

National University, Bangladesh | April 2013– August 2017

Experience

Software Tester (Intern)

Vitec Software Group, Umeå | Nov 2021 – Mar 2022

- Conducted **functional and regression testing** using **Azure DevOps (TFS)** to improve application performance and reliability.
- Executed **SQL-based validation** to ensure data integrity and smooth system integration.
- Collaborated with **developers and product owners** in agile sprints to enhance the **usability and user experience** of enterprise products.
- Supported release documentation and participated in sprint retrospectives to streamline QA workflows.

Leadership & Teamwork

- Experience supporting and coordinating work with developers
- Strong verbal and written communication skills
- Ability to guide discussions and clarify requirements for technical teams
- Comfortable working in **hybrid (remote and office) environments**

Languages

English (Fluent) · Swedish (Professional) · Bengali (Native)

Interests

AI-Integrated Interfaces, Human-AI Collaboration, Autonomous Systems, Inclusive & Assistive Design, Data-Driven UX, and Scalable Design Systems, SaaS UX.
